Rocket seeds!

When we return from the Easter break all classes will be participating in a scientific study of plant growth. We shall be planting rocket seeds sent back from space, alongside other seeds to discover whether there are any differences in growth patterns. We are grateful to Stephen Davy and the Compost Committee for their continued commitment to environmental education and to enhancing our school grounds.

Congratulations Freddie!

Freddie from our Year 6 class will be joining a football tour to Jersey with the District team over the Easter break. Well done!
